WORK EXPERIENCE

1 Sep 2010–15 Mar 2011

Helpdesk and Virtualization Enthusiast

Prosistem Computer Systems and Solutions. (IBM Partner), Bursa (Turkey)

www.prosistem.net

I have experienced to work with Prosistem's after sales service customers about helpdesk operation for Microsoft Server systems, server and desktop virtualization implementation and control their backup infrastructure. The goal of this role is to provide after sales installations and on call technical support operations for the customers.

21 Mar 2011–30 Nov 2012

Vmware Server and Desktop Virtualization expert

Data Market, Istanbul (Turkey)

www.datamarket.com.tr

Responsible for all aspects of virtualization technologies. Analyze customer's needs; develop long-term strategy guidance about virtual environment about both Vmware vSphere and View environments.

Administrating, managing and creating solutions for BCDR solutions.

Storage implementation and management for NetApp, EMC, HP, Dell, Qnap.

Business or sector Information and communication

1 Mar 2014–1 Mar 2016

Implementation and after sales support services

D724 Bilgi Hizm., Istanbul (Turkey)

<http://www.d724.com.tr>

Premium support and assistance for Hitachi Data Systems. Implementing, upgrading and managing both midrange and enterprise series data storage products like HUS, HUS VM and VSP.

Business or sector Information and communication

25 May 2013–31 Dec 2018

Vmware Datacenter Solution Specialist

Data Market, Istanbul (Turkey)

www.datamarket.com.tr

Analyzing risk assessment of existing or new services and technologies to ensure the protection of the organization's IT assets and foundations. Performing mostly Vmware and Microsoft Hyper-V datacenter virtualization solutions. Design and implement business continuity, model based cloud automation services, service provisionings and managing lifecycle management of those services.

Expertise of vSAN, Horizon View and vRealize Automation solutions for premium customers.

Business or sector Information and communication

1 Jan 2019–Present

PSO Consultant - Implementation Architect

VMware, Istanbul (Turkey)

As a PSO Consultant I'm working closely with Enterprise Customers on large scale datacenter automation and cloud projects based on VMware technology. I produce best of breed technical designs incorporating VMware and relating products to fulfill customer requirements. I do technical leadership in the installation and configuration of VMware products with a key focus on integrating and automating the IT landscape.

Focused area

- vSphere

- Business Continuity Solutions vSphere Replication, Site Recovery Manager.

- vSAN

-vRealize Automation and vRealize Orchestrator
